

Where to download the latest AVIOTEC Firmware

Link: <https://downloadstore.boschsecurity.com/index.php>

Select:

The screenshot shows the 'Download Area' interface. At the top, a blue banner contains the text 'Download Area'. Below this, there are four tabs: 'Firmware' (annotated with a red circle '1'), 'Software', 'Apps', and 'Notes'. Under the 'Firmware' tab, there are three dropdown menus: 'Cameras and Encoders' (annotated with a red circle '2'), 'AVIOTEC' (annotated with a red circle '3'), and a 'Select' button (annotated with a red circle '4'). Below the dropdowns is a table with the following data:

Platform	Version	Reference	Checksum	Release note
AVIOTEC	7.72.0008	CPP6_FW_7.72.0008_AVIOTEC.fw [61.7 MB]	SHA256	

At the bottom of the page, there is a link: [Show also older active versions ...](#)
