Release Letter

Product:	<i>DIVAR IP all-in-one 5000 Family</i>
Version:	<i>Patch Installer version 1.00 (initial release)</i>

1. General

The Patch Installer combines a number of software patches, which are applicable to the above-mentioned product(s). The Patch Installer is supposed to be executed on an already installed system. It does not change or replace the recovery image.

2. Restrictions; Known Issues

- After login to BVRAdmin account for patch installation the system needs to be rebooted, which may result in a recording gap (depending on the amount of RAM-buffer of the used cameras). It is recommended to check recording functionality after system update and reboot.

3. New subcomponent software versions

If installed on BVMS 9 system:

- Video Streaming Gateway 6.45.0010
- Transcoding Service 6.44.0042

If installed on BVMS 10 system:

- Video Streaming Gateway 7.00.0002
- Transcoding Service 7.10.0017

4. New Features

N/A

5. Applied Changes / Bug Fixes

- Patch for BVMS-10.0.0.1225: 211404, 241463 - Security Issue
- Adds firewall exceptions for 64-bit BVMS binaries

6. Installation Notes

The following steps have to be performed in order to patch an existing installation on a DIVAR IP all-in-one video management appliance:

- Download and unzip the Patch Installer from <http://www.boschsecurity.com>
- Copy the content to a USB drive
- When the BVMS default screen is shown, press CTRL + ALT + DEL
- Hold down the SHIFT key while clicking Log off
- Log in as BVRAdmin
- Transfer the BVMS installation folder from the USB drive to the BVRAdmin desktop
- Double click executable inside the transferred folder.
- Follow the installation procedure without changing any settings

Notes:

- During initial boot and installation the system must be connected to a network.
- The patch requires a system reboot which results in a short recording gap.
- In case of an upgrade to BVMS 10, the patch shall be applied after the BVMS upgrade.

7. History

N/A – initial version
